

# RFID SPECIFICATIONS – NOT REQUIRED TILL 2021

## Radio-Frequency Identification (RFID)

Nordstrom is embarking on a journey to enable Radio-Frequency Identification capabilities across the enterprise. RFID capabilities are critical to providing our customers with the best possible experience shopping our brands anywhere and any way they would like. This requires that we have better visibility and more accurate, real-time views of our inventory so that we can anticipate and proactively address our customers' expectations. RFID tickets are required for all stores and online merchandise.

## FAQs

- **When will Nordstrom require RFID?** Currently, we do not have a set date but are asking suppliers to plan on Q1. More information to come soon.
- **Will all Nordstrom channels require RFID (FLS, Rack, Nordstrom.com, Nordstromrack.com & HauteLook)?** Yes.
- **Will dropship suppliers be required to supply RFID?** Not at this time.
- **Will other product types be added to the inlay specifications list?** It's possible as RFID technology improves, the list will be expanded.
- **Is there a preferred tag model from the inlay list?** All the inlays meet our requirements. Choose a tag based on your packing and business needs.

## RFID Resources

There are many resources available to you to support your migration and adoption of RFID technology. While Nordstrom will not tell you who to work with, below is a list of exemplar resources that we would recommend.

Education	Ticketing	Software	Hardware
GS1 Auburn University RFID Lab	Avery Dennison Fineline Technologies SML NexGen Packaging	Impinj SML Tyco Retail Solutions	BlueBird Impinj Zebra Technologies

## EPC-Enabled RFID Tickets

Nordstrom will be launching RFID capabilities in a phased approach. The following section provides you with requirements for the use and application of EPC-enabled RFID technology for Phase 1.

1. **EDUCATION:** GS1 offers low-cost education and training on RFID enablement and its applications within retail. We urge you to reach out to GS1 to learn more about this technology and how you can apply it to optimize your inventory accuracy and product visibility
2. **IDENTIFY INTERNAL STAKEHOLDERS:** Changing packaging and/or implementing the technology required to leverage RFID crosses many teams:
  - a. Packaging
  - b. Merchandising
  - c. IT/Operations
  - d. Supply Chain
3. **DETERMINE YOUR TAG OPTIONS:** There are many options for approved inlays in the marketplace. We encourage you to work with a Service Bureau and/or directly with your tagging partner to migrate to RFID tickets. Tag specifications by merchandise category can be found in the next section
  - a. Review and select your Tag/Inlay from the approved and certified list of vendors at <https://rfid.auburn.edu/temp/suppliers.php/>
  - b. Determine tag application options (integrated vs. secondary tag)
  - c. Determine best approach to encode/apply the tag to ensure proper identification and application to the correct product
4. **DEVELOP THE APPLICATION PROCESS:**
  - a. Review tag placement options in alignment with the [GS1 Apparel and General Merchandise Placement Standards](#)
  - b. Develop quality controls
  - c. Finalize information to be included on the EPC label
  - d. Ensure there is an ECP symbol as a visual identifier on all tickets
5. **TESTING:** Testing is integral to the success of the RFID initiative. Please send all new tickets to Auburn University RFID Lab for testing.
  - a. Review encoding of the sGTIN
  - b. Review overall look and placement of tag ensuring required information is present
  - c. Send labels/tickets to Auburn University for review/testing

## EPC-Enabled RFID General Requirements

1. All tags should be GS1 UHF Gen 2 certified. For a list of certified vendors, see: <https://rfid.auburn.edu/temp/suppliers.php/>
2. All tickets should be sGTIN-96 encoded for the specific product SKU in alignment with the [GS1 Tag Data Standard](#)
3. All EPC tickets shall have a visual identifier that an EPC is present, using the EPC symbol on the label. Guidelines for use of the EPC symbol can be found here: <https://www.gs1.org/standards/epc-rfid/guidelines>

## RFID Inlay Specifications | Phase 1

<b>Apparel: Women's, Men's &amp; Kid's</b>	<b>Tag Spec.</b>	<b>Accessories</b>	<b>Tag Spec.</b>	<b>Home &amp; Gifts</b>	<b>Tag Spec.</b>
Activewear	Spec G	Belts	Spec F	Bedding Sets	Spec F
